

Narzędzia frezerskie składane - Frezy jeżowe (Walcowe)

BT3441.50

Charakterystyka:

Heavy roughing milling cutter that uses very strong inserts allowing deep passes and high feed per teeth. The insert is fixed by Torx screw that allow a good chip evacuation and easy use. Milling cutter equipped with BT shank.

Zastosowanie:

This heavy roughing cutter works well on steels, alloyed steels, stainless steels, refractory casts and aluminium alloys. This general milling cutter for diversified manufacture is recommended for conventional milling machines and machining centres.
