

Narzędzia frezerskie składane - Frezy na płytki okrągłe

**BT6656**

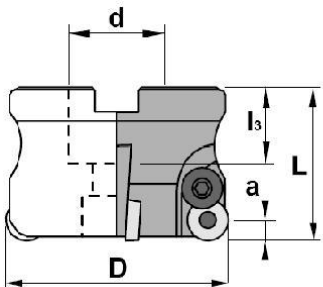

**Charakterystyka:**

Round insert end mills for slot milling, peripheral milling, ramp milling and drilling, pocket milling and copy milling. Precision type inserts are available for efficient machining in most materials.

**Zastosowanie:**

This copying milling cutter works well on hard steels, alloyed steels, stainless steels, refractory casts and aluminium alloys. A general milling cutter for diversified manufacture that allows using it in only one pass (roughing and finishing) and it is recommended for conventional milling machines and machining centers.
