

Narzędzia frezerskie składane - Frezy czołowe 90°

BT2346.11

Charakterystyka:

This super positive milling cutter with an exact angle of 90° uses strong inserts allowing deep passes. The insert is fixed by Torx screw that allow a good chip evacuation and an easy use. Milling cutter equipped with short cylindric shank.

Zastosowanie:

This face and square (angle 90°), slot and side milling cutter works well on steels, alloyed steels, stainless steels, refractory casts and aluminium alloys. This general milling cutter for diversified manufacture is recommended for conventional milling machines and machining centers.
